

Deburring

3M Offers a variety of advanced abrasive technologies for deburring, finishing and polishing. Designed to save time and steps, 3M abrasives are suited to today's difficult-to-process alloys and other advanced materials, making it easier for you to deliver the surface finishes and tolerances your customers demand – on-time and on-budget.

Scotch-Brite™ EXL Deburring Wheel

- Excellent choice for deburring and creating a radius
- Conformable and smooth running
- A unique resin system reduces heat build-up
- Available with aluminum oxide mineral in medium grades
- Silicon carbide available in fine and medium grades.

Scotch-Brite™ EXL Pro Deburring Wheel

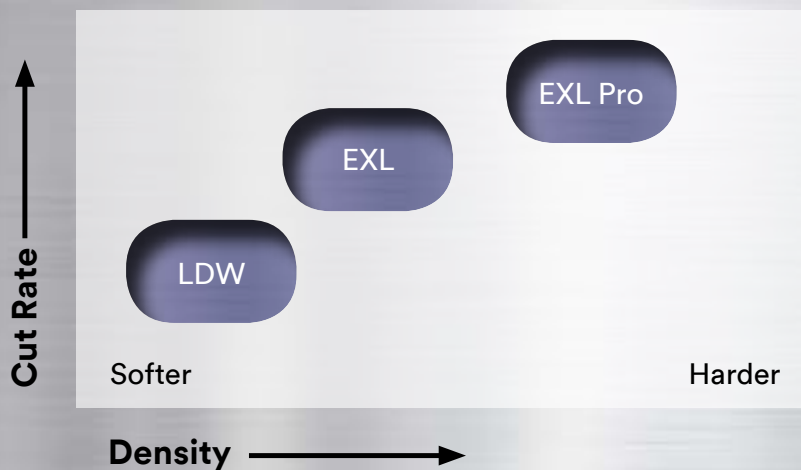

- Excellent choice for deburring and polishing.
- A unique resin system helps minimize smearing
- Ideal for heavier deburring of edges
- Durable wheel
- Fast cutting

Scotch-Brite™ Light Deburring Wheel

- Designed to provide a clean and economical system for removing fine burrs while providing a highly polished finish for surgical instruments.
- Silicon carbide available in fine grades.
